Software Developer

- Software Engineer with 3 years of experience, a Master's in Software Engineering, and a certification in Business Entrepreneurship.
- Skilled in full-stack development, including Python, Java, MySQL, Angular, FastAPI and Django
- Developed responsive web applications and integrated RESTful APIs, improving user engagement, page load speeds, and data retrieval efficiency.
- Proficient in Git, optimizing code performance, and collaborating in an agile environment to deliver high-quality code with 2 weekly releases, meeting sprint goals.

Experience

Clarivate Software Engineer

Bangalore, India 11/2021 - 07/2023

- Developed 15+ features for an Angular UI dashboard, including lazy loading, infinite scroll, improving patent data access by 40%.
- Optimized backend REST APIs using FastAPI in Python and MySQL queries, cutting query times by 85%, from 2 minutes to under 10 seconds.
- Automated batch patent file transfers using cron jobs on Linux and WinSCP, reducing transfer time by 40%
- Gained experience with Jenkins to automate CI/CD pipelines, improving deployment speed by 40%.
- Familiar with AWS S3, EC2, SQS, and used AWS CloudWatch to set up alarms, reducing response time to issues by 25%.
- Mentored a fresher, ensuring a smooth transition in 6-7 weeks through knowledge transfer sessions and process documentation.

Clarivate Associate Software Engineer

Bangalore, India

05/2021 - 11/2021

- Created a translation service using Java and integrated 10 new languages using IBM and Google translation engines, expanding service capabilities, and documented the procedure.
- \bullet Implemented batch translation and glossary API with Google, reducing translation costs by 20%
- Migrated MAT system from Spring to Spring Boot, replacing XML with Java configs, reducing complexity and improving performances.
- Performed migration of over 25 queries from Oracle to PostgreSQL and MongoDB, testing both for system revamp and evaluating their scalability.
- Explored and tested Apache Kafka, gaining hands-on experience with its architecture, message brokering, and real-time data streaming capabilities.

Accenture Application Development Associate

Bangalore, India

11/2020 - 04/2021

- Built reusable React.js components, debugged issues, and resolved over 20 bugs for the in-house project, and worked briefly on the backend using Node.js.
- Collaborated with UX and product teams to gather insights and designed 3-5 custom templates using Figma.

EDUCATION

Master of Engineering in Electrical and Computer Engineering

09/2023 - 12/2024

University Of Waterloo

Waterloo, Canada

Bachelor Of Engineering in Computer Science Dayanada Sagar University 08/2016 - 07/2020

Bangalore, India

Projects

SSHAuthman — University Of Waterloo

09/2024 - 12/2024

- * Contributed to SSHAuthman, a secure repository managing 1000+ public keys, enabling employees and students to self-manage authorized public keys for SSH authentication.
- * Implemented Django internationalization for access key management in more than 5 languages and used MkDocs to document the procedure and usage.

Traffic Management Optimization — University Of Waterloo

09/2023 - 12/2023

- * As part of coursework, designed a solution to optimize security camera deployment at traffic intersections by addressing the NP-complete Vertex Cover problem, reducing camera installations while ensuring full coverage.
- * Analyzed and evaluated CNF-SAT, Approx-VC-1, and Approx-VC-2 algorithms to determine their effectiveness based on dataset size and optimal usage scenarios.

SKILLS

Agile development, Amazon CloudWatch, CSS, DSA, Debugging, Django, Docker, FastAPI, Figma, Git, GitHub, GitLab, HTML, Java, JIRA, JavaScript, Kafka, Leadership, MongoDB, MySQL, Node.js, Object-oriented programming, PostgreSQL, Postman, React.js, REST APIs, RESTful development, Springboot, SQL, Software Development Life Cycle, Swagger, Team Collaboration, TypeScript.

AWARDS AND CERTIFICATIONS

Certificate in Business and Entrepreneurship Conrad School of Entrepreneurship and Business 12/2024

* Received a Star Award for overall performance in Q1
